# Криптограмма

## КРИПТОГРАММА

Предложение или высказывание зашифровано с помощью самой простой технологии: каждая буква алфавита заменена какой-нибудь другой буквой. Например, "Привет" может быть "Бнефид", где "Б" заменяет "П", "Н" заменяет "Р", "Е" заменяет "И", "Ф" заменяет "В", "И" заменяет "Е" и "Д" заменяет "Т". Особенность криптограмм в том, что чем они длиннее, тем легче их расшифровать. Обычно процесс начинают с поиска слов, состоящих из одной буквы, они могут значить «и» и «в», двухбуквенных слов, часто это «на», «по». Если фраза начинается с трехбуквенного слова, это может быть «что».

Расшифруйте «криптограмму». Для этого надо отгадать ключевые слова под рисунками и вписать буквы из этих слов в клеточки. Если вы правильно разгадаете слова, у вас получится название благотворительной организации.

**RSPCA - The Royal Society for the Prevention of Cruelty to Animals - Королевское общество предотвращения жестокого обращения с животными**
